Derma Support (60 vcaps)

£25.50

Derma Support is a unique nutritional formulation designed to help maintain healthy skin tone and protect against tissue damage associated with skin aging. This is accomplished by providing several potent antioxidants and collagen-stimulating nutrients to assist metabolic processes that support and nourish skin cells.

Alpha-lipoic acid and L-Carnosine: These highly protective antioxidants scavenge a wide range of free radicals, stabilize cell membranes, and inhibit oxidative damage. Both nutrients also help prevent glycation, a tissue-damaging process that can result in wrinkle formation. In addition, L-Carnosine uniquely targets damaged proteins for removal, which in turn promotes cell rejuvenation.

Glucosamine Sulfate: This natural compound stimulates internal synthesis of healthy collagen, and is important to skin resiliency, tone, and firmness. Incorporation of glucosamine into connective tissue compounds called glycosaminoglycans and hyaluronic acid contributes to collagen remodelling and skin hydration.

MSM®: An exceptionally bio-available form of the essential mineral sulfur, MSM supplies a ready source of organic sulfur for use by connective tissues and cellular detoxification systems to support healthy skin.

Derma Support can be used by anyone who is concerned about the health and appearance of their skin and who wants to encourage formation of healthy collagen.

Suggested Use: 1 to 2 capsules daily with food.

Cautions and contraindications: No adverse reactions have been reported. However, people with allergy to fish and fish products may not tolerate Derma Support.

This product was made in a GMP and ISO 9001:2000 registered facility.

Last updated: Sept 2009

Supplement Facts

Serving Size 1 Capsule

Amount Per Capsule

Alpha-Lipoic Acid	50 mg*
L-Carnosine	250 mg*
Glucosamine Sulfate.2KCl (from crab and/or shrimp shells)	250 mg*
Methylsulfonylmethane (MSM®)**	250 mg*

*Daily Value not established.

Other ingredients: Vcaps™ vegetarian capsule, cellulose, water, magnesium stearate, and silicon dioxide.

**MSM® is the registered trademark for licensed methylsulfonylmethane, a naturally-occurring source of sulfur, an essential mineral.
