Enzyme Support (120 vcaps)

£23.90

Enzyme Support is a comprehensive digestive enzyme formula that can assist in the breakdown of a wide range of proteins, peptides, fats, complex carbohydrates, sugars, and fibres. Provided in vegetarian capsules, Enzyme Support can be used by children or adults to assist more complete and proper digestion of food as needed.

Enzyme Support can be used as a general digestive aid, or when gastrointestinal function has been compromised by maldigestion, malabsorption, dysbiosis, or intestinal inflammation. This high-potency, multi-enzyme formulation offers an unusually complete range of plant/microbial-based enzymes that work in concert to help maintain normal enzyme levels that support the body's digestive capabilities and assist intestinal repair mechanisms.

Enzyme Support contains:

Plant-derived enzymes: Enzyme Support is a vegetarian formula containing enzymes that are active across a very broad pH range, making them effective throughout the entire GI tract.

A comprehensive blend of active enzymes: The broad-spectrum combination of enzymes in Enzyme Support work together to maximize the breakdown, absorption, and utilization of macronutrients from a wide spectrum of foods, including proteins and protein peptides, carbohydrates, disaccharides, and sugars, lipids/fats, and vegetable fibers. Special proteases (protein-specific enzymes) are included that have Dipeptidyl peptidase IV (DPP-IV) activity to support optimal cleaving of casein and gluten and their exorphin peptides (casomorphin and gluteomorphin). *Serratia* peptidase, a unique enzyme that helps protect sensitive GI tissues from irritation, and lysozyme, an enzyme that helps break down bacterial and yeast cell walls, are also included.

Hypoallergenic ingredients: This product contains highly purified, filtered enzymes to meet needs of food sensitive patients. It is free of porcine or other animal-derived enzymes and avoids fruit-derived enzymes (bromelain, papain, kiwi) for maximum tolerance. It is also free of gluten and dairy. All-natural sweeteners and flavours are used. NOTE: Lysozyme in this product is derived from egg white. Although this is a highly purified material, individuals with known egg white allergy should consult their doctor before using this product.

Suggested Use: Take 2 capsules per meal.

Cautions and Contraindications: No adverse reactions or drug interactions have been reported.

This product was made in a GMP and ISO 9001:2000 registered facility.

Last updated: Sept 2009

Supplement Facts		Serving Size 2 Capsules • Servings Per Container 60	
Amount Per 2 Capsules		Amount Per 2 Capsules	
Comprehensive Enzyme Blend 800 mg*		Beta Glucanase	20 BGU*
With the following minimum enzyme activity:		Alpha-Galactosidase	40 GalU*
Carbohydrate Specific Enzymes		Galactomannase	200 HCU*
Amylase	1,830 BAU*	Protein and Peptide Specific Enzymes	
Alpha Amylase	100 DU*	Acid Protease	50 SAP*
Glucosylase	30 AGU*	Alkaline Protease	50 PC*
Sugar Specific Enzymes		Protease/Peptidase Complex with DPP-IV endo-peptidase/eko-peptidase activity	40,000 HUT*
Lactase	1,500 ALU*	Fat Specific Enzyme	
Sucrase (invertase)	135 INVU*	Lipase	15,000 LU*
Maltase	200 DP*	Other Enzymes	
Pullulanase	25 PUN*	Lysozyme (from egg white)	100,000 SHU*
Vegetable/Plant Fiber Specific Enzymes		<i>Serratia</i> peptidase (enteric-coated)**	2,500 SPU*
Cellulase	500 CU*		
Hemicellulase/Pectinase Complex	200 HSU*		
Phytase	10 FTU*		

Other ingredients: Cellulose, Vcaps™ vegetarian capsule, water, and L-leucine.

**Peptizyme SP®, a registered trademark of Specialty Enzymes

Caution: Individuals with known egg white allergy should consult their physician before using this product.
