

## Infla Support (60 vcaps)

**£24.90**

Infla Support capsules provide a unique combination of concentrated botanical extracts that help regulate the body's natural anti-inflammatory response. Inflammation is a complex defence and repair mechanism that is activated in response to challenge by infectious or allergenic agents, injury, disease, and even aging. The botanical extracts in Infla Support work together to help prevent excessive inflammation associated with tissue damage and other causes of inflammatory reactions.

**Turmeric:** Turmeric root has long been used in folk medicine to promote physiological balance in tissues affected by inflammation. Many of the beneficial actions of turmeric are purported to be due to antioxidant and regulatory mechanisms exerted by its component curcumin.

**Rosemary:** Rosemary herb contains several active constituents that exhibit potent antioxidant activity and protect cells from damage. By inhibiting synthesis of certain inflammation-promoting compounds, rosemary helps protect tissues and maintain cell integrity.

**Holy Basil:** Compounds in holy basil helps modulate activity of proinflammatory enzymes and eicosanoid compounds, thereby protecting gastric tissues and supporting capillary integrity following inflammatory stimuli.

**Green Tea:** Polyphenol compounds in green tea act as potent antioxidants that reduce free radical induced damage contributing to the inflammatory process. Green tea also slows entry of inflammatory compounds into cells.

**Ginger:** Constituents of ginger root exert a balancing action on processes leading to inflammation. They also help protect the stomach against irritation.

**Chinese Goldenthread and Barberrry:** Both of these long-used traditional herbs contain significant natural amounts of berberine, which acts as a potent scavenger of free radicals and supports rebalancing of COX enzymes that regulate inflammation.

**Baikal Skullcap:** Numerous compounds in Baikal skullcap called flavonoids contribute to the herb's complex balancing action on several enzymes involved in regulating inflammation. Specific flavonoid compounds in Baikal skullcap also have potent antioxidant activity to protect cells from oxidative damage.

**Resveratrol:** Resveratrol is a potent antioxidant compound found in Polygonum herb and also in grapes that exerts tissue protective actions. It reduces synthesis of prostaglandin compounds that can cause inflammation.

**Suggested Use:** 1 capsule twice daily with food.

Supplement Facts	
Serving Size 1 Capsule	
Amount Per Capsule	
Turmeric ( <i>Curcuma longa</i> ) root, dried extract, min. 95% curcuminoids	375 mg*
Rosemary ( <i>Rosmarinus officinalis</i> ) leaf, dried extract, min. 6% camosic acid, min. 1% ursolic acid	100 mg*
Holy Basil ( <i>Ocimum sanctum</i> ) leaf, dried extract, min. 2% ursolic acid	100 mg*
Green Tea ( <i>Camellia sinensis</i> ) leaf, dried extract, min. 50% catechins (polyphenols)	100 mg*
Ginger ( <i>Zingiber officinalis</i> ) root, dried extract, min. 5% gingerols	50 mg*
Chinese Goldenthread ( <i>Coptis chinensis</i> ) root, dried extract, min. 10% berberine	25 mg*
Barberrry ( <i>Berberis vulgaris</i> ) root, dried extract, min. 6% berberine	25 mg*
Baikal Skullcap ( <i>Scutellaria baicalensis</i> ) root, dried 5:1 extract	13 mg*
Protykin*** Polygonum cuspidatum, dried extract, min. 50% resveratrol	2 mg*

\*Daily Value not established.

Other ingredients: Vcaps™ vegetarian capsule, water, silicon dioxide, and magnesium stearate.
